Prologue

You can remember that night as clear as this one. Six months ago, somewhere between midnight and morning, your computer signaled an incoming e-mail on the United Internet System. When you saw the name of the sender, CALYPSO, your eyes glazed over with visions of your greatest fantasy, your ultimate desire. And then, when you read the message, you knew that this dream was within your grasp. The message, flashing in red, simply said: WILL YOU DRIVE?

Once a year the legendary Calypso, a man who dwells beneath the streets of LA, holds the TWISTED METAL competition. The contest takes place all around the Los Angeles area and calls upon vehicles of every kind to battle to the death. The one driver still alive at the end of the night is granted any request—any prize he asks for. There are no limits on price, size, or, according to some, even reality.

Your special invitation from Calypso has given you the chance to do battle in Twisted Metal. This is where all of your skills, all of your luck, and all of your guts, are put to the test. This is where life and death decisions occur every instant. This is where the Grim Reaper lurks around every corner, waiting to strike. And this is where your ultimate dream can come true. Welcome to the big time...WELCOME TO TWISTED METAL!

refs & pedestrians

Twisted Metal is not held in some cushy arena. It takes place on the very real streets of Los Angeles, California. This means you're gonna catch a little resistance from the fine folks who live and work there. No problem! Twisted Metal has the highest spectator death toll of any contest in human history! In other words...**RUN EM DOWN!!!**

Here's just a few of the people who may show up to cause you some trouble:

REFS

FOOT REFS: These are standards who shoot missiles and machine guns. Their weapons do little damage but there's enough of them to wear you down.

HOVER REFS: Floating through the sky, these hover refs will swoop down from above and attack. Try not to stay in one place for too long or you will definitely get blasted!

MANHOLE REFS: These aggressive refs (are there any other kind?) pop up from manholes and attack with force!

PEDESTRIANS

These are people who are too stupid to realize they should stay inside when a full on war is ravaging the streets. Try to be kind to these foolish souls and stay out of their way...**YEAH RIGHT!!!!**

POWER EXEC: You know all of those stuffy suits who like to stifle creativity, lessen productivity, and, in general, think they know it all? This is one of those guys! Have fun!

ICE SKATER: Oh, Ice Skating! What a lovely sport! Here let me use the front of my car to send you into a double pirouette!

LAWN CHAIR SLACKER: This guy brings a LAWN CHAIR to a War Zone!!! Need we say more?!?

CRAZY JOE: There's a bum wandering around the suburbs. He's tough to find but rumor is he spends a lot of his time in the canals. Give this guy a permanent home...6 feet under!

DOG: Yes there's a dog in the game! No you can't run him over! What's the matter with you?! Get some help! Even WE'RE not THAT sick!!!

Car Maneuvers

The Twisted Metal vehicles can do just about anything a real car can do. Besides the standard maneuvers, here's a list of some advanced moves you'll need to master. Experiment with different button combos to figure out how to execute these driving maneuvers:

T-STOPS: Use this maneuver to ram your enemies using the side of your car. To attempt, go into a 90 degree turn then brake hard.

T-SLIDES: This is a maneuver that allows your car to slide sideways. Use it to skid around corners. To attempt, go into a 90 degree turn or press Tight Turn button, let go of gas, then gun it.

180 DEGREE TURN: Flip a U-Turn in no time flat. Very useful for freeway fighting. To attempt, press Tight Turn button and Directional Button at high speed.

weapons & health

HEALTH STATIONS :These are the blue ramps scattered throughout the environments. Driving through these will recharge a portion of your health. The level of difficulty you are on determines how much of your health is replenished and how fast the stations recharge once you have used them up.

WEAPONS: Knowing what your weapons do and how to use them is the KEY to winning Twisted Metal. While there are a few vehicles that may be able to RAM their way through a battle, most must rely on their fighting skills. The following list will help you learn and understand the weapons available to you and your enemies:

MAXIMUM WEAPON CAPACITY: All vehicles can carry up to 30 weapons. MAX CARRYING CAPACITY will appear on screen whenever a vehicle attempts to carry more than 30 weapons. NOTE: If a weapons pick-up exceeds the maximum, the vehicle will only pick up as much as it can. The remaining weapons in the pick-up will disappear.

MACHINE GUNS: Every vehicle comes with a machine gun. These are the weakest weapons but they have unlimited ammunition. While you can not run out of ammo, your guns can overheat. When this happens, lay off your guns until your overheat light goes off.

FIRE MISSILE: The stock weapon of the Twisted Metal combatants. These are standard projectile missiles that have a slight homing property, and do a decent amount of damage.

FREEZE MISSILE: Hitting an enemy with this missile causes them to freeze in place for a few seconds. They will not be able to attack or move. You can distinguish a car that is frozen by the blue layer of ice that covers them.

NOTE: If you are hit by a freeze missile, you can break out of the freeze by pressing turbo. Doing this will take away a full unit of turbo, so make sure you can spare it

HOMING MISSILE: A very powerful missile that homes in on enemies and sends them flying into the air. A great weapon for setting up combos.

POWER MISSILE: The most powerful weapon in Twisted Metal. Hitting an enemy with this causes major damage!

REAR MISSILE: A fire missile that flies out from the back of your car.

DROP MINES: These are small, metallic explosives that detonate from pressure. If your enemy runs over them, the mines will go off. They only last for a few moments, so be sure to drop them at the right time. A challenging weapon to use, but the damage it causes is worth all the trouble.

TIRE SPIKES: These are small spikes that puncture your enemy's tires. No damage is caused but it will slow your opponent down for a few seconds.

CATAPULTS: Drop these and drive over them for an extra bounce. Use them to get into those hard to reach places or to bounce enemies into your line of fire!

REAR FLAME: A large column of flame that shoots out from the back of your car.

OIL SLICKS: Use this weapon to leave a slick pool of oil on the streets of LA. When you or your enemy drives through it, your car will slide and slip around for a few seconds.

TURBOS: Use these to get ten seconds of super speed. Great for chasing faster opponents and escaping a heated battle when low on weapons or health. Turbo can be used as a GAS button if you don't have any turbo units picked up. Also, if you have been frozen by a missile, you can break out of the freeze automatically if you hit turbo. Doing so will cost you one turbo unit, so be sure you can spare it. Conserve 'turbo juice' by letting off the button when you do not need it.

Battlegrounds

Twisted Metal takes place all over the streets of LA. There are many areas to fight in and explore. Keep in mind that this is no ordinary racing game. There are **NO TRACKS!** Go where you want, when you want. If you're looking for environments that lead you along on a track (you wimpl!), you're playing the wrong game!

ARENA LEVEL: It's 3 in the morning and the city is wide awake! Welcome to Calypso's Nightclub, an underground arena where you and a single enemy face off for the right to compete in the contest!

WAREHOUSE DISTRICT WARFARE: Calypso's Nightclub spills out onto the streets where you and 3 enemies go head to head in the warehouse district of downtown LA.

FREEWAY FREE FOR ALL: Gunfights on the LA Freeways? Wherever did they get THAT idea?!? Live out a reality that most LA Drivers experience EVERY DAY! Blast 5 opponents to South Central and back in this fast paced level!

RIVER PARK RUMBLE: Welcome to Beverly Hills! Try to take down 6 enemy vehicles while the 'beautiful people' run for cover! Ya know, come to think of it, take down some of the beautiful people while you're at it!

CYBURBIA: The biggest level of the Twisted Metal contest. Go crazy in school parking lots, battle it out in front of convenience stores, even fight your way past a church! Whoever said video games were violent...they were right!!! 8 deadly enemies in this level!

ROOFTOP COMBAT: The rooftops of LA's tallest skyscrapers serve as the battle ground for Twisted Metal's final battle! Shoot and shove 3 enemies into submission, then go head to head with MINION, the winner of last year's Twisted Metal. If you win this level, you win the contest and get to claim your ultimate fantasy...

The Vehicles

You can choose from twelve vehicles when playing Twisted Metal™. Each vehicle comes equipped with a special weapon. These weapons are unlimited but take away from your SPECIAL WEAPON ATTACK NUMBER. When this number is at zero, you have no more special weapon shots left and must wait for the Special Weapon to recharge.
